Deepanshi Agarwal

B.Tech – Computer Science Engineering (AI & ML)

India

deepanshiagarwal08@gmail.com | +91-8279799033

GitHub: deepanshi-code | LinkedIn: linkedin.com/in/deepanshi-agarwal-87b306377

PROFILE

B.Tech CSE (AI & ML) student with hands-on experience in Python, C/C++, web development and introductory AI/ML. Interested in building practical software projects and strengthening problem-solving and development skills.

EDUCATION

Bachelor of Technology (B.Tech)

Computer Science Engineering (AI & ML)

Graphic Era Deemed University | 2025 – 2029 | CGPA: 9.6

TECHNICAL SKILLS

Programming: C, C++, Python, JavaScript
Web Development: HTML, CSS, React, Vite
Core Concepts: Data Structures, OOP, File Handling, Problem Solving
AI/ML: Supervised Learning, Regression, Classification, Scikit-learn
Libraries: NumPy, Pandas, Matplotlib, Seaborn
Tools: Git, GitHub, VS Code, Vercel

EXPERIENCE

AI-Assisted Full Stack Web Development Intern — Technology Business Incubator, Graphic Era University

Worked on frontend development using React and Vite, practiced Git/GitHub workflows, and developed project deliverables in a practical internship environment.

PROJECTS

ShrinkByte — File Compressor & Decompressor

• PBL project using Huffman Coding. Combines Data Structures in C with OOP in C++. Uses frequency tables, min heap/priority queue, binary tree and linked-list concepts for file compression and decompression.

CropMind Chatbot

• React + Vite chatbot frontend developed as a practical web project. Focused on component-based UI development, user interaction and deployment.

ClockWatch — Digital Clock & Stopwatch

• Python-based clock and stopwatch application with real-time time tracking and timer functionality.

Random Password Generator

• Web project using HTML and CSS with JavaScript for customizable password generation and user input handling.

Live projects: CropMind Chatbot | Password Generator | ClockWatch

COURSEWORK

• Programming with Python
• Data Structures
• Object-Oriented Programming
• Fundamentals of Artificial Intelligence & Machine Learning
• Web Development

PROGRAMS & ACTIVITIES

• Technology Business Incubator (TBI-GEU) — AI-Assisted Full Stack Web Development Internship
• AWS Skill Builder / AWS learning activities
• Graph-E-Thon participation
• Ideathons and hackathon-oriented project development

ACHIEVEMENTS & ACTIVITIES

• Academic: Maintained a strong academic record with 9.6 CGPA.
• Project acknowledgement: Academic/project-based work involving Data Structures, OOP, web development and AI/ML fundamentals.
• Professional acknowledgement: Completed practical internship work with the Technology Business Incubator at Graphic Era University.
